

CLIN' AZUR

MM CLZ 117 - 1LT 1 litre container

MM CLZ 117 - 5LT 5 litre container

DEODORANTE SCALING SUBSTANCE FOR PIPES AND WASHROOM

Gel composition containing hydrochloric acid, intended for descaling sanitary appliances, tiles and certain metals such as chromium and stainless steel taps and fittings.

MM CLZ 206 - 750ML

Bottle of 750 ml.

1 Lt. refill

BIOLOGICAL GLASS CLEANER

Environmentally friendly cleaner in aqueous phase containing vegetal compounds resulting from essential oils, entirely biodegradable. Does not leave traces. Cleans and prevents bacterial growth. The 206 contains neither alcohol nor solvents. Recommended for cleaning windows, glass, stainless, enamel, TV screens, plastics, acrylic resin.

- MM CLZ 1-1LT 1 litre container
- MM CLZ 1-5LT 5 litre container
- MM CLZ 1-30LT 30 litre tank
- MM CLZ 1-200LT 200 litre drum

BILGE AND ENGINE CLEANER

Detergent and emulsifiable composition based on petroleum solvents and synthetic surfactants.

Ideal for degreasing and cleaning all types of surfaces polluted by mineral oils and greases and crude and refined oils: crude oil, fuel oil, lubricating oil, etc.

Safety of use much appreciated by amateur yachtsmen. Very high emulsifying power and efficiency.

- MM CLZ 3-1LT 1 litre container
- MM CLZ 3-5LT 5 litre container
- MM CLZ 3-30LT 30 litre tank
- MM CLZ 3-200LT 200 litre drum

COLD WASH BILGE & ENGINE CLEANER

- MM CLZ 2 - 1LT 1 litre container
- MM CLZ 2- 5LT 5 litre container
- MM CLZ 2- 30LT 30 litre tank
- MM CLZ 2- 210LT 210 litre drum

BIO BILGE CLEANER

Clz2 is a safe, vegetable based ecosolvent. It can be used advantageously to replace petroleum solvents.

Can be used in confined spaces. Has a high flash point and, because it is surfactant free, dries rapidly without leaving any traces. Immediately effective on all types of substrate. Biodegradable.

Detergent and emulsifiable composition based on petroleum solvents and synthetic surfactants.

Ideal for degreasing and cleaning all types of surfaces polluted by mineral oils and greases and crude and refined oils: crude oil, fuel oil, gas oil, lubricating oil, etc. Particularly suited to merchant shipping for holds, engines, tanks, ballasts, cisterns, hulls – before painting – and bridges, after degassing or unloading.

Very easy to use. Very high emulsifying power and efficiency.

CLIN' AZUR

MM CLZ 4-1LT

1 kg container

MM CLZ 4-5LT

5 kg container

RAW ALUMINIUM RESTORER

Composition based on hydrofluoric acid, specially formulated for cleaning, brightening and stripping untreated aluminium. Spectacular action and results – immediate destruction of vegetable, mineral or animal greases – on floors and decking of machine rooms and tanks, vessels or cisterns in untreated light alloy. Deoxidises and gives an “as new” appearance to the treated surfaces. Cuts labour time.

MM CLZ 6P-1LT

1 litre container

MM CLZ 6P-5LT

5 litre container

DEODORANT FOR BILGES

Water based bactericidal formulation containing surfactants and pine oil. Stops bacterial proliferation in hold water, while leaving a pleasant fresh fragrance. Complementary insecticidal and acaricidal action.

MM CLZ 5-1LT

1 litre container

MM CLZ 5-5LT

5 litre container

MM CLZ 5-30LT

30 litre tank

MM CLZ 5-200LT

200 litre drum

CONCENTRATED ALKALINE DEGREASER

05 Cleans drinking water tanks. Eliminates diesel that has accidentally got into water reservoirs. Provide for abundant rinsing.

MM CLZ 7A -400ML

400 ml aerosol

PENETRATING OIL

Formulated from refined mineral oil, 07 A is a powerful cleaner and penetrating oil that allows seized or corroded parts to be dismantled easily: nuts, bolts, hinges, pulley axles, etc. 07 A also insulates engine ignition systems. Leaves a protective anti-corrosion film. Excellent lubricant for moving parts.

MM CLZ 11A-400ML

400 ml aerosol

PLASTICIZING VARNISH

Clear acrylic varnish, gloss finish, UV and weathering resistant. Non-yellowing at ambient temperature. Use for protecting plastic - or polystyrene - substrates and paper documents. Also acts as a good insulator for electrical terminals and printed circuits.

MM CLZ 25K-750ML

750 ml pot

MM CLZ 25K-5LT

5 litre container

ENGINEERS HAND SOAP

Gel hand soap, specially formulated for workshops, particularly mechanical workshops.

25 K does not contain any abrasives or alkaline materials but solvents, natural fats and oils and surfactants.

25 K efficiently eliminates traces of oils, greases, dirt and tar. Protects the skin, while preventing it drying. Contains antiseptic and bactericidal agents. All of the components of 25 K are completely soluble and dispersible in water.

MM CLZ 12A-400ML

400 ml aerosol

DIELECTRIC SOLVENT

Water repellent cleaning solvent for electrical contacts. Evaporates without leaving any residues.

Does not leave traces on metal surfaces and does not alter the substrates.

Ideally suited for cleaning the rotors of electric motors.

Has a "de-moisturising" effect and is very efficient in marine environments.

MM CLZ 13A-400ML

400 ml aerosol

WATER REPELLANT

Water repellent protective fluid, reinforced with corrosion inhibitors.

Repels water and humidity. Excellent corrosion protection of mechanical parts and electrical equipment. Suitable for use in saline atmospheres.

Ideal for over-wintering boat engines. Repels water and humidity, leaving a protective film. Improves the dielectric properties of the parts treated.

CLIN' AZUR

MM CLZ 31- 250ML 250 g bottle
MM CLZ 31- 1KG 1 kg container
MM CLZ 31- 5KG 5 kg container

FAST ACTING RUST CONVERTER

Anticorrosion formulation that acts by chemically converting the oxidation into an organometallic film that assures anodic passivation of the ferrous surface.

31 neutralises the metal corrosion process and converts rust into a protective chemical barrier.

MM CLZ 41A-200ML 200 ml aerosol.
MM CLZ 41A-400ML 400 ml aerosol.

GREASE FOR WINCHES

Green, water repellent grease based on lithium soap. Very good adhesion. Insoluble in both fresh and sea water. High resistance to saline atmospheres and high temperatures. Protects and lubricates all moving mechanical parts under pressure subjected to the different effects of water and heat. Recommended in boating for greasing winches, rigging screws, etc.

MM CLZ 42A-400ML
400 ml aerosol

GELCOAT RENOVATOR

Formulation based on surfactants and solvents combined with a very fine abrasive. Ideal for obtaining a gloss finish on boat gelcoats or car bodywork. Ideal for giving surfaces an "as new" finish.

MM CLZ 44-60GR

Bag with 2 x 60 g sticks.

HAND SHAPED EPOXY FILLER

Two component, epoxy mastic – solvent free – with good adhesion on most materials: metals, wood, polyester, tiles, marble, etc. Does not dilate or shrink. May be used in water. Excellent resistance to cold and heat, impact, vibration and corrosive environments. Provides a genuine cold solder that, after hardening, can be machined, tapped, milled, drilled or threaded. Useful for all sorts of repairs: hulls, tanks, pipes, mechanical parts, etc.

MM CLZ 80NF-1LT

1 Lt container

MM CLZ 80NF-5 LT

5 Lt container

CONCENTRATED HULL & DECK CLEANER

80 NF is more highly concentrated, and is preferable for removing black deposit from exhaust fumes on rear panels, and on the waterline, as well as resistant stains.

MM CLZ 90NF-750ML

750 ml spray

MM CLZ 90NFR

5 litre refill

PROFESSIONAL MULTI-PURPOSE CLEANER

Powerful, heavy duty detergent designed to clean and degrease engines, holds, floors, plastic surfaces, metals, enamels, etc. Complementary bactericidal action. Marine fragrance.

MM CLZ 102 -500 ML

500 ml. container

MM CLZ 102 -1LT

1 litre container

MM CLZ 102 -5LT

5 litre container

RUST STREAKS REMOVER

Composition based on phosphoric acid and surfactants, used to remove runs and traces of rust on plastic hulls, painted surfaces and metals. Eliminates yellowing of the gelcoat. Passivates bare metal and provides it with very efficient corrosion protection for several weeks.

MM CLZ 104 -500 ML

500 ml. container

MM CLZ 104R

1 Lt. refill

MULTI-PURPOSE DEODORISER

Water based formulation with a pleasant fragrance to absorb strong odours such as fuel, particularly gas oil. Very effective in boat holds and engine rooms. Immediate action on all substrates, including hands and fabrics.

CLIN' AZUR

MM CLZ 105E-1LT	1 litre container
MM CLZ 105E-5LT	5 litre container
MM CLZ 105E-30LT	30 litre tank
MM CLZ 105E-210LT	210 litre drum

HULL CLEANER

Detergent specially designed for cleaning and degreasing the gelcoats of hulls and bridges, plastic, metallic or painted surfaces, sails, awnings, etc. Acts rapidly on the static film without attacking the substrate.

MM CLZ 106-500ML	500 ml. container
MM CLZ 106-1LT	1 litre container
MM CLZ 106-5LT	5 litre container

FUEL ADDITIVE

Formulation based on a high boiling point petroleum solvent, containing surfactants and anti-oxidants. 106 eliminates any water contained in tanks by having it combusted, improves output by 9 to 14%, reduces smoke emissions and raises the cetane number.

MM CLZ 107-150ML	150 ml bottle
MM CLZ 107-500ML	500 ml bottle
MM CLZ 107-1LT	1 litre container
MM CLZ 107-5LT	5 litre container

BIOCIDE FOR FUEL

Biocide, extremely effective against the micro-organisms present in gas oil. Double preventive and curative action on the whole feed circuit. Very wide range of effectiveness on all bacteria and moulds. Action time around 48 hours when used for curative purposes. Provides protection for around 4 to 6 months. Fully compatible with all types of fuels.

MM CLZ 108-5LT

5 litre container

DETERGENT FOR WATER SEPARATOR

Detergent for forming self-breaking emulsions based on petroleum solvents and surfactants. Forms a stable emulsion that facilitates cleaning and rinsing. Decants oil from water, allowing the most important waste to be collected manually and facilitates the action of the separator filters. Allows the water from holds and cargo compartments to be discharged into the sea after cleaning, in accordance with regulations (hydrocarbon content in discharged water less than 15 ppm) and for the oil to be recovered if necessary. Concentrated, very economical and quick acting product.

MM CLZ 109-1LT 1 litre container
MM CLZ 109-5LT 5 litre container

SEPTIC TANKS AND GREASE TAPS BIOLOGICAL TREATMENT

Water based liquid formulation, non flammable and non toxic, for eliminating scale deposits on the internal walls of industrial condensers and water circulation devices. 109 is capable of dissolving the thickest layers of scale, even with a high silica content, restoring the original finish to the metal.

MM CLZ 112-1LT 1 litre container
MM CLZ 112-5LT 5 litre container

OIL & DIESEL SPILL DISPERSANT

Hydrocarbon dispersant based on very low toxicity solvents and surfactants. Very efficient for eliminating traces of petroleum products – white spirit, petrol, gas oil, crude oil, heavy fuel oil, oils, etc. – accidentally spilled in the sea or in a port. Approved by the French Ministry of the Environment, the CEDRE and the British Department of Industry.

MM CLZ 113P-1LT 1 litre container
MM CLZ 113P-5LT 5 litre container

BACTERICIDE DISINFECTANT FOR SANITARY TANK

Fragranced water based formulation – containing a powerful bactericide – intended for cleaning, disinfecting and deodorising foul, grey or black water tanks of low or medium capacity (up to 1000 L) that are frequently emptied.

113 P also has a very efficient germicidal action that halts bacterial proliferations in the fermentation or putrefaction processes of pipes and tanks.

MM CLZ 117-1LT 1 litre container
MM CLZ 117-5LT 5 litre container

SANITARY CLEANER

Gel composition containing hydrochloric acid, intended for descaling sanitary appliances, tiles and certain metals such as chromium and stainless steel taps and fittings.

MM CLZ 118-1LT 1 litre container
MM CLZ 118-5LT 5 litre container

SCALING SUBSTANCE FOR ELECTRIC BOILERS

Water based liquid formulation, non flammable and non toxic, for eliminating scale deposits on the internal walls of industrial condensers and water circulation devices. 118 is capable of dissolving the thickest layers of scale, even with a high silica content, restoring the original finish to the metal.

MM CLZ 119-1LT
1 litre container

ANTI CALCIUM DEPOSITS FOR COOLING SYSTEMS

Water based formulation containing corrosion inhibitors and sequestering agents. Protects cooling circuits against rust and scale, while maintaining any particles suspended in the cooling water. Ready to use. Non toxic.

MM CLZ 120-1LT 1 litre container
MM CLZ 120-5LT 5 litre container

ACID DESCALER AND RUST REMOVER

Composition based on hydrochloric acid and surfactants, with multiple uses in pleasure boating: stripping of rust, cleaning of hulls, propellers and shaft lines, descaling of sea water exchangers, pipes and toilet collectors, etc.

MM CLZ 121- 5KG
5 kg bucket / 25 tablets

CHLORINE TABLETS

Slow dissolving 200 g organo-chlorine tablets with 85% active chlorine, for disinfecting twin stage Microphor-MSD type black water tanks.

MM CLZ 122-24T

5 Pot of 24 tablets

MM CLZ 122-120T

Bucket of 120 tablets

BLACK WATER TANK BIO-TREATMENT

Powerful biological activator in the form of effervescent tablets, based on cultures of non pathogenic micro-organisms and nutritional elements that act by degradation on the organic sediments in general and on oils and fats. Use reserved for black water tanks and foul pipe pipes. Bacterial count: 20 million bacteria per gramme. Eliminates odours. Accelerates the biodegradation of waste and environmentally friendly.

MM CLZ 126-5KG

5 kg bucket

SULFAMIC ACID

Water soluble formulation in powder form with 95% sulphamic acid, whose properties are perfectly adapted in the marine and yachting areas to chemical descaling, while in port, of water circulation equipment such as condensers, heat exchangers, evaporators, cooling and heating circuits, etc. 123 is very easy to store and handle. Does not release any toxic or explosive gases or vapours. Contains a coloured descaling indicator and a corrosion inhibitor, which limits ferrous metals being attached by corrosion. Economical, since the recommended doses are between 2 and 10% maximum. 2 kg of 126 are capable of dissolving 1 kg of scale.

MM CLZ 136 - 1LT 1 litre container

MM CLZ 136 - 5LT 5 litre container

GREY WATER TANKS TREATMENT

Entirely natural liquid biological formulation specially designed for emulsifying, liquefying and degrading animal and vegetable oils and fats.

Contains non pathogenic bacteria at a concentration of 20 billion per litre. Used in grease tanks and grey water tanks.

Considerably reduces emptying frequency. Eliminates odours in pipes and tanks. Neutral product, free of alkaline and acid substances and chlorine derivatives. Harmless to humans and animals. Generates a bacterial flora that is favourable to subsequent treatment in water treatment plants.

MM CLZ 200 - 1LT 1 litre container

MM CLZ 200 - 5LT 5 litre container

POWDER TEAK CLEANER

Powder formulation based on a high concentration of trisodium phosphate dodecahydrate.

200 is ideal for in-depth cleaning of oily wood, particularly teak. Very easy to use – the amount used just needs to be adjusted to the requirements – both for routine maintenance and for complete “as new” restoration works. Product widely recognised and used for many years in marine and boating circles.

CLIN' AZUR

MM CLZ 201-1LT 1 litre container
MM CLZ 201-5LT 5 litre container

LIQUID RENOVATOR FOR TEAK

Preparation based on phosphoric acid designed to revive the colour of teak and restore its original radiance.

MM CLZ 202-1LT 1 litre container
MM CLZ 202-5LT 5 litre container

OXALIC ACID

Known for many years as "sel d'oseille" ("sorrel salt" or potassium oxalate), powdered oxalic acid is used in marine and boating circles for cleaning and bleaching teak decks.

MM CLZ 203LS-1KG
1KG CONTAINER

POWERFUL LIQUID PAINT STRIPPER

203 LS is a highly active paint and varnish stripper.

MM CLZ 204-250GR 250 g pot
MM CLZ 204-1KG 1 kg pot

GELCOAT RESTORER

Thick polishing paste designed for renovating polyester, gelcoat or epoxy type plastic surfaces.

Contains aromatic-free solvents, soap and fine silica abrasive particles.

Gives an "as new" finish and restores the original colour. May also be used for renovating certain metals: stainless steel.

MM CLZ 205SI-1LT 1 litre container
 MM CLZ 205SI-5LT 5 litre container
 MM CLZ 205SI-30LT 30 litre tank
 MM CLZ 205SI-210LT 210 litre drum

CONCENTRATED HULL AND DECK CLEANER

Detergent specially designed for cleaning, degreasing and renovating the gelcoats of hulls and bridges, plastic, metallic or painted surfaces, sails, awnings, etc. Acts rapidly on the static film without attacking the substrate.

MM CLZ 206-750ML
 0,75 litre hand sprayer
 MM CLZ 206-1LT
 1 litre refill

BIO GLASS CLEANER

Environmentally friendly cleaner in aqueous phase containing vegetal compounds resulting from essential oils, entirely biodegradable. Does not leave traces. Cleans and prevents bacterial growth. The 206 contains neither alcohol nor solvents. Recommended for cleaning windows, glass, stainless, enamel, TV screens, plastics, acrylic resin.

MM CLZ 208-1LT 1 litre container
 MM CLZ 208-5LT 5 litre container

BOAT FENDER CLEANER

Very powerful solvent based formulation for cleaning and renovating the fenders of pleasure boats.

MM CLZ 210-500GR
 500 g pot

CALCIUM REMOVER

Formulation based on a very fine particle size powder containing cerium oxide. Used to remove calcium stains (salt deposits) on boat windows in the form of droplets that detergents cannot remove.

CLIN' AZUR

MM CLZ 211A-200ML

200 ml aerosol.

MM CLZ 211A-400ML

400 ml aerosol.

TEFLON LUBRICANT

Extremely fine, dry lubricant formulation (polytetrafluoroethylene and volatile solvents/ PTFE particles of 5 microns) for all materials: wood, leather, metals, plastics, rubber, etc. Use on runners, drawers, pulley axles, traveller carriages, deck hatches, rigging screws, cloth and bag slides, mainsail slides, etc. Leaves substrates dry, clean and non-oily. Exceptional temperature resistance: from -120° to +260°.

MM CLZ 212-250ML

250 ml bottle

MM CLZ 212-1LT

1 litre container

MM CLZ 212-5LT

5 litre container

TEAK OIL

Synthetic oil specially formulated for protecting teak, which it makes water proof and slightly light brown coloured. Guaranteed efficiency for several months in temperature climates.

MM CLZ 214-1LT

1 litre container

MM CLZ 214-5LT

5 litre container

SAIL AND AWNING CLEANER

Highly concentrated alkaline formulation designed for cleaning heavy textiles, particularly sails, awnings and tarpaulins. Guaranteed efficiency whether with cold or hot water. Low foaming and makes it possible to avoid using acid products.

MM CLZ 216-1LT

1 litre container

MM CLZ 216-5LT

5 litre container

NON-SKID DECK CLEANER

Detergent formulated from 2 very powerful surfactants intended for in-depth cleaning of non-slip painted or plastic surfaces, which it cleanses very easily.

MM CLZ 217-500ML

500 ml container

GELCOAT POLISH

Gel formulation contain fine calibrated abrasive particles, intended for restoring all oxidised or scratched substrates. Efficient on gelcoats, polyester, epoxy, plastics, composites and painted surfaces. Restores the original colour and leaves a protective film.

MM CLZ 218-500ML

500 ml container

POLISH WITH PTFE

Gel formulation containing fluorinated polymers intended for renovation works or protecting plastic or painted surfaces. PTFE based polishes have the advantage of ensuring a really exceptional finish and making substrates look "as new".

MM CLZ 219-1LT 1 litre container MM CLZ 219-5LT 5 litre container

INFLATABLE DINGHY CLEANER

Composition based on petroleum solvents intended for cleaning inflatable dinghies in complete safety.

MM CLZ 220-250GR 250g container

CHROME & STAINLESS STEEL POLISH

220 chrome and stainless steel polish, takes away surface scratches like a liquid rubber. Protects and puts a shine on copper, chrome and stainless steel.

CLIN' AZUR

MM CLZ 222-1LT 1 litre container
MM CLZ 222-5LT 5 litre container

LIQUID TEAK CLEANER

Very powerful alkaline detergent designed for cleaning teak and other exotic woods. Ideal for completely eliminating particles of grease and carbon incrustrated in the wood fibres.

MM CLZ 240-1LT 1 litre container
MM CLZ 240-5LT 5 litre container

ANODISED ALUMINIUM RESTORER

Especially formulated to clean anodised aluminium surfaces, 240 is a light acid product. Particularly appropriate for the restoration of the doorframes, joineries and frontages, as well as all parts of aluminium chandlery. 240 containing no mineral acids, neither solvents, nor fluoride, is totally safe for window glasses and rubber seals.

MM CLZ 302-1LT 1 litre container
MM CLZ 302-5LT 5 litre container

LEATHER & VINYL CLEANER

Specially formulated detergent for cleaning leather, vinyl, Skaï® and, more generally, plastic surfaces.

Neutral, non-aggressive, low-foaming product that does not alter the colour and leaves surfaces clean and shiny. Does not require any mechanical action.

TECHNICAL
ASSISTANCE
ON-LINE

+39 339 6709546

MM CLZ 304-250ML 250 ml. container
MM CLZ 304-1LT 1 litre container

WATER REPELLENT FOR WINDOWS

Special multi-purpose fluid based on organo-mineral copolymers, intended for the preventive treatment of surfaces. Applications: non-wetting, hydrophobic, anti-adherent, anti-scale, anti-soiling, anti-dust, anti-condensation, etc. Works well on most substrates: glass, polycarbonate, enamel, stainless steel, earthenware, anodised aluminium, chromium, acrylic (PPMA) and most plastics (given the very wide diversity of plastics available, carry out a compatibility test on a small area).

Perfect for treating windows and portholes or even the superstructure, preventing the adhesion of salt or ice on the treated surfaces. Significantly reduces the need for general maintenance. Long-lasting action and excellent resistance to acids, solvents and detergents.

MM CLZ 305-1LT 1 litre container

CARPET SHAMPOO

Formulation based on a new generation of super-active cleansing agents.

305 is both easy to use and very economical (high coverage per m²). Cleans without foaming, revives colours, restores softness to the fibres and gives an "as new" look to faded carpets.

MM CLZ 306A-400ML

400 ml aerosol

LEATHER & PLASTIC RENOVATOR

Mixture of oils and resins in solution in volatile solvents. Recommended for renovating leather, Skai[®], plastic coverings, dashboards, enamelled surfaces, etc.

Antistatic and water repellent. Pleasant orange fragrance. Shines, easily removes dust and leaves a protective anti-corrosion film.

MM CLZ 312-200ML

200 ml bottle

LEATHER NUTRIENT CREAM

Stabilised and neutral maintenance milk for protecting and nourishing all types of leather, even the most delicate. Gives leather back its initial flexibility and prevents it drying out. Leaves a gloss satin finish.

MM CLZ 405-1LT

1 litre container

BIO TREATMENT CHEMICAL TOILETS

Powerful liquid biological activator, based on cultures of non pathogenic micro-organisms and nutritional elements that act by degrading organic sediments in general and oils and fats in particular. Use restricted to chemical toilets and black water tanks. Eliminates odours. Accelerates the biodegradation of waste and allows chemical toilet tanks to be disposed of in drains.

MM CLZ 520-200ML

200 ml aerosol

TALLOW GREASE

Lubricating and greasing agent based on animal fats. High resistance to humid atmospheres, particularly marine atmospheres. Very wide range of uses on moving and non moving parts: pulley axles, shackles, rigging screws, etc. Exceptional water repelling properties.

MM CLZ 550-200ML

200 ml aerosol

SILICONE LUBRICANT

Water-repellent, dielectric and antistatic renovating lubricant. Helps parts slide more easily and does not dry out. Shear and humidity resistant. Non corrosive and without effect on metals and plastics. Very widely used in yachting, particularly due to its excellent resistance to salt air, for lubricating hinges, slides, tools, locks, etc.

MM CLZ DICAL-1LT 1 litre container
MM CLZ DICAL-5LT 5 litre container

DEOXYDIZER-DESCALER

Composition based on phosphoric acid and surfactants, used to remove runs and traces of rust on plastic hulls, painted surfaces and metals. Eliminates yellowing of gelcoats. Passivates bare metal and provides it with very efficient corrosion protection for several weeks.

MM CLZ NECLIM-1LT 1 litre container
MM CLZ NECLIM-5LT 5 litre container

MULTI-PURPOSE CLEANER

Polyvalent, multi-purpose aqueous degreasing detergent, which can be used for cleaning recipients that come into contact with foodstuffs (in accordance with the provisions of the French Ministry of Agriculture). High cleaning and descaling power. Penetrates into porosities and micro-fissures. Also destroys unpleasant odours. Recommended for degreasing and cleaning the surfaces of:

- Tiled walls and floors,
- Boat hulls,
- Plastic and synthetic coatings,
- Textiles.

MM CLZ OXYPHOS-1LT

1 litre container

MM CLZ OXYPHOS-5LT

5 litre container

PHOSPHORIC ACID

Composition based on phosphoric acid and a wetting agent, used to remove runs and traces of rust on plastic hulls, painted surfaces and metals. Passivates bare metal and provides it with very efficient corrosion protection for several weeks.

MM CLZ XERAPOL-50GR

Available capacities: 50 g

XERAPOL-PLEXIGLASS POLISH

XERAPOL makes those fine scratches of Plexiglas disappear (portholes, compass etc.) Genuinely effective.
